# Protein Complex

# NO:2

EN

Keratin is a type of protein that is present in our hair and it gives a smoother, more vibrant and voluminous look. Petra Protein Complex Keratin Hair Care Complex contains proteins and keratin, and gives a natural and glossy look to your hair as well as helping for a more vibrant and healthier look. The keratin care complex strengthens the weak hair and gives a smooth look. Treated-hair will be particularly damaged after a number of hair treatments. The Keratin Care Complex offers a unique care treatment for your extremely damaged hair. It prevents hair loss by shedding. The product prevents hair shedding and loss by improving elasticity of hair and strengthening it. This hair botox will give your hair a healthy and strong look. You will easily detangle your hair. Petra Protein Complex Keratin Hair Care helps straightening your hair. This might give your hair a smooth look for a long time. For professional use.

# Hair Mask – Keratin

NO:3

EN

Petra Protein Complex Leave on Hair Mask contains vitamins, proteins and keratin in its formula and this formula gives a silky and glossy look to your hair. The natural proteins and keratin in the product will not damage for hair. It offers a complete hair care routine. This product prevents hair damages and breakages caused by hair treatments. It helps protecting the moisture balance of your hair. Suitable for daily use.

# Instructions for Use

## 1 Refining and Priming Keratin Shampoo

Wash the hair with the refining shampoo 2 times. During the second wash, keep the shampoo on the hair for 5 minutes. Rinse thoroughly after 5 minutes and dry the hair completely.

## 2 Protein Complex

Divide the hair into small locks. Apply our Keratin Botox product with a fine comb but do not apply to the roots. Wait for 40 minutes after applying the product. Then, after 40 minutes, dry the hair completely for 5 to 10 minutes using a hair dryer diffuser. Divide the dry hair into small locks once again and apply 230° press once. Press two times depending on the type of hair (if very curly). After pressing the hair, wait for 5 minutes (let it cool down). Then, rinse without tangling the hair much, as if you move around perm waves.

## 3 Hair Mask – Keratin

After rinsing the hair, apply moisturizing mask on it and wait for 5 minutes. Rinse the hair thoroughly once again and blow dry to complete the hair treatment routine.
